The city is a popular tourist destination located about 40 minutes drive from the big city of Alicante and the airport. Torrevieja was originally a small fishing village, and is today one of Europe's largest salt producers, Torrevieja has previously been called the 'salt city', but in recent years the city has also been named 'the sports city', this because of the large sports arenas that have been built in recent years. As a result of this fantastic investment, Torrevieja became one of four organising cities during the Women's Handball World Championship in 2021.When you live in Torrevieja, you are within a short walking distance to white, elongated sandy beaches with the 'blue flag' stamp, as an indication of, among other things, high water quality. In the immediate area and preferably 'right outside' the door you will find a large selection of local shops, restaurants, cafes, shopping centres, green parks, the harbour and the promenade. If you are looking for an area with life all year round and a healthy microclimate with 320 days of sunshine a year, this may be something for you
