Odległość od morza (w linii pr...	773 m

OPIS

In one of the most dynamic areas of Benidorm lies a true private oasis designed for those who want to enjoy the Mediterranean with added exclusivity and tranquility. Upon entering this residential complex, you feel as if you have stepped into a small resort where everything is designed to help you unwind: a long, deep blue swimming pool runs along the side of the building and becomes the center of daily life, surrounded by comfortable sun loungers, hanging chairs, and green corners that invite you to forget the hustle and bustle of the city. The modern architecture of the complex, with large glass surfaces, glass railings, and marble details, reinforces that feeling of relaxed luxury that is so hard to find in the heart of Benidorm.

APARTMENT IN FINESTRAT

Nr ref. MLSC524829 · 290.000 €

OPIS

The pool area is undoubtedly the great visual attraction of the development. The mirror of water stretches like an infinite sheet across the entire garden, perfect for swimming laps, cooling off in summer, or simply letting yourself be carried away by the sound of the water while sunbathing. Different environments have been created around it: relaxation areas with reclining chairs, padded beds for lying down with a book and, above all, a series of bohemian-style swing chairs that hang from the perimeter structure and offer an intimate corner from which to contemplate the pool. During the day, the sun reflects off the water and fills the entire space with light; at sunset, the combination of blue tones, vegetation, and architecture creates a very special atmosphere, ideal for sharing a drink or a quiet dinner outdoors. The vegetation plays a fundamental role in the personality of this residential complex. Palm trees, banana trees, and tropical plants embrace the entire perimeter of the garden, providing freshness, natural shade, and a pleasant exotic touch that mentally transports you to a vacation resort. Strolling along the paths surrounding the pool, sitting under a tree, or swinging in a hammock among the vegetation becomes part of the daily routine. The feeling of privacy is maximized, as the design combines green areas, enclosures, and differences in height that isolate the exterior and allow you to enjoy the space without prying eyes, something highly valued in a city as lively as Benidorm. The building that presides over the development has been designed with a distinctly contemporary feel. The light-colored facades, marble details, and glass railings provide a clean, bright, and very modern image. From the terraces, you can enjoy direct views of the pool and gardens, so that the blue of the water and the green of the plants are part of the everyday landscape from the first coffee in the morning to the last light of day. At the same time, the location allows you to contemplate the Benidorm skyline and the surrounding mountains, a combination that reinforces the feeling of being in a unique enclave: close to everything, but with a much more serene atmosphere than the center. Inside the residential complex, the experience continues with a spa area that surprises with its careful design. The heated water circuit includes different hydromassage areas, pressure jets, and relaxation areas, all covered with marble-inspired mosaics and ceramics that convey elegance and well-being. Here you can enjoy a moment of true relaxation at any time of year: a bubble bath after a day at the beach, a dip in hot water in winter, or a relaxing afternoon while the wind blows outside. The spa is complemented by an enveloping atmosphere, indirect lighting, and a carefully crafted aesthetic that turns each visit into a small ritual of self-care. The development also incorporates spaces designed to maintain an active lifestyle without leaving home. An area equipped with a multifunction machine allows you to do strength training and tone your body without having to go to an external gym. Translated with DeepL.com (free version)
