The "Annapurna II" residential complex consists of 22 homes, including 2- and 3-bedroom apartments and duplexes distributed across 4 buildings. Residents share 2 communal pools and gardens, as well as an underground parking lot. Each property includes 2 parking spaces and a storage room in the price, with the option to purchase additional spaces and storage rooms.

The properties are designed in a staggered arrangement, so they are not directly above each other, as in a conventional apartment, and each only has one neighbor to the side.

Each home has an open kitchen that connects with the living/dining area and provides access to a spacious terrace. They also have a laundry room and 2 bathrooms. Built with high-quality materials, the homes come equipped with ducted hot/cold air conditioning, underfloor heating, and aerothermal hot water. In addition, they feature fully equipped kitchens (including appliances) and complete bathrooms.
