

#166355 / Torrevieja / Alicante / Spain

## Description

er a new concept of living that combines luxury, design, and sustainability in every detail. This exclusive residential complex has been designed with your comfort and well-being in mind, offering features that make your daily life a unique experience.

Imagine enjoying the comfort of pre-installed ducted air conditioning, ensuring an ideal temperature all year round. Live in a healthy environment thanks to forced extraction ventilation, in compliance with current regulations, and enjoy the peace and security of a modern video intercom with a monitor.

Energy efficiency takes center stage with a hot water generation system powered by aerothermal energy, and on colder days, experience maximum comfort in the bathrooms with electric underfloor heating.

Personalize your space to your taste with kitchen furniture finish options available in Matte White, Soft Black, or Vicenza Oak, paired with countertops in Blanco Norte, Zeus, or Gris Expo. Additionally, each bathroom comes equipped with stylish furniture and shower screens that enhance its modern design.

Common areas and the façade are illuminated with strategically placed LED lights and strips, creating a cozy and sophisticated environment that stands out.

Make your dream of living in a place where every detail has been designed to offer you an unparalleled lifestyle come true. Don't miss this opportunity and contact us for more information!
