Description

NEW RESIDENTIAL DEVELOPMENT IN LAS COLINAS GOLF

Promotion of newly built luxury apartments in Las Colinas Golf Country Club.

Beautiful apartments and penthouses with 2 and 3 bedrooms. All ground floor apartments and penthouses have private pools. The 3-bedroom apartments have double parking in the basement and an incorporated wine room.

All bedrooms and the living room have direct access to the south-facing terrace.

The open kitchen, dining room, and living room benefit from natural light from the large windows that open onto the terraces with views of the communal area and the green surroundings. The apartment includes a parking space and a private storage room in the basement. In the heart of the South Costa Blanca, we find a lush 330-hectare valley between hills, very close to the sea and with a magnificent championship golf course running through it. This unique urban development is classified as ecological due to the low density of the constructed housing.

The success of this ecological urban project lies in the total integration of the buildings into the natural environment. If you are looking for a place in Spain to disconnect and find that intimacy, at Las Colinas Golf & Country Club you will find the ideal place to escape.
