Description

The Martin Pescador villa articulates the interior spaces through simple, pure, and emphatic geometries. It is accessed via a ramp and staircase integrated into the terrain, with the upper part of the house resting on a stone plinth that leads into the house.Â

On the ground floor, there is a garage, a generous entrance hall next to a large wine cellar, and the bedroom and gym spaces. These spaces are open and framed by a pure geometric frame that envelops beautiful views of the surroundings. On the upper floor are the main bedrooms of the house, all with en-suite bathrooms and a large open space of more than 90m² to house a fluid kitchen-dining room and living room with a 180Â° panoramic view over the landscape.Â

All this space is surrounded by a spacious terrace, at the front of which there is an open porch of more than 50m², projecting the interior of the house towards the outside and turning it into a unique space. A unique geometric piece that offers impressive views over the landscape and arranges the interior program and functionality in a practical and careful way.
